Subject: Re: Building Consent (Foundation re-level) 34 Carters Road Aranui

Dear Patrick

Thank you for your information. Attached are the requested empty file containers for your consent documentation to be uploaded into.

The instruction guide on how to apply for a consent in Build Express has been attached. Please click the PDF file icon and select open to view. The instructions on how to format your documents and submit your application are located on page seven and continue to page fifteen.

The following documents need to be uploaded:

- application— including correct application form, check sheet, certificate of title and any sale and purchase agreements, together with a Licensed Building Practitioner Designer statement, if the application is for restricted building work
- specifications
- plans
- supporting documents

Note: The compulsory file fields (when superseding a document) have been set up specifically for your building consent. Please do not change these as any changes may result in a delay in processing.

You may have noticed a change in the titles of the document placeholders. Please continue to upload

your application documents to the appropriate placeholders.

Other points to note:

- Application forms must contain a signature.
- All specification documents (each section), as well as supporting documents and plans, are to be bookmarked to reduce administration charges.

[Please feel free to contact us via Aconex if you have any further enquiries.](#)

Kind regards,

Sandi Rhynd
