

3 ONSLOW ROAD | NAPIER HILL

A SIMPLE RENOVATION VISION

Exploring the potential
within the existing home.

CONCEPT DESIGN STUDY

A simple renovation vision

What might be possible with this home?

THE BRIEF

To explore what this home could become - working with the existing footprint and proportions rather than reinventing the house's layout.

THE DESIGN DIRECTION

Warm, relaxed and quietly beautiful. A restrained palette of soft off-whites, natural timber, muted greens, aged brass and blackened metal, layered with texture, vintage character and simple, timeless finishes.

THE OPPORTUNITY

To showcase what this blank-canvas Napier Hill home could become - a home with wonderful proportions, nestled in nature and surrounded by beauty. Thoughtful renovation could turn it into something warm, cohesive and highly liveable, without requiring a complete architectural overhaul.

Concept imagery is illustrative only and intended to explore design potential rather than prescribe an architectural solution.
