Subject: 140 awamoa

Hi – have just come back from Erik Badcock 140 Awamoa road – discussed sewer connection – happened at same time as Mays at 142 . Thought the plumber would have taken care of it all. He will await a letter from you regarding a pipeline agreement (and any drain agreement between the users of the private drainage) . He will tell Mays at 142 who he sees regularly to expect a letter also . Let me know what is happening because I will hold of the CCC on 140 for a bit awaiting this agreement
