Reason for condition	(Abbreviated) This property may contain a domestic spaceheater or open fire that falls under the rules set out in the Council's Air Quality Plan. Under rule AQr.24.1, within the Urban Area the use of open fires was allowed to continue up until 1 January 2008 (except that any 'Jetmaster' type open fire (including Warmington brands) may continue until 1 January 2013). Discharge to air from open fires is prohibited after that date. In addition, within Airsheds A and B1 (as defined in the Air Plan) the use of existing enclosed burners has been phased out. The use of all enclosed burners that do not comply with the emissions standards set out by the Air Quality Plan has been progressively banned between 2010 and 2012, starting with the oldest burners. This was necessary to meet the targets imposed by the National Environmental Standards for air quality. Updated 7 th June 2012.
