Dear Mrs. Heywood & Mrs. Anchor,

Child Care Centre - 98 Pukuatua Street

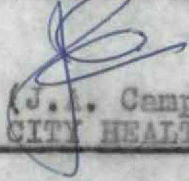

This morning Mr. Watson, the Child Welfare Officer telephoned me regarding the provisional licence issued to you to operate a Child Care Centre at 98 Pukuatua Street.

He advised me that you intend to have an additional wash hand basin installed and that you wish to use light screenings on the driveway. I have discussed this latter matter with the City Engineer and he has asked me to advise you that the conditions set by the Town Planning Committee included the condition -

"That the accessway must be properly formed and sealed to the satisfaction of the City Engineer".

The Engineer is not prepared to accept a drive formed in the manner you propose and I suggest that early attention be given to having the drive sealed.

Yours faithfully,

(J.A. Campbell)
