

98 Pukuanua Av.
Lokoma.

7th Feb. 1968.

Advised ~~that~~
Memo to F Thrupp
8.3.68.

Your ref: - GSR: JH.

Mr. List,
City Engineer,
Lokoma City Council,
P.O. Box 496,
Lokoma.

Dear Sir,
With reference to
your letter dated 31st January
1968, I realise the conditions
as set down by you
as yet have not been
fully met.

The access driveway
is my main concern as I
feel it is not wide

2

enough to be negotiated easily, in that you have to swing wide onto the road to be able to turn in safely.

My suggestion is if we could possibly come to some arrangement with you to fill in the storm water drain, approximately 8 feet, and lower the curb in between my neighbour and I so as I could reform the ~~the~~ driveway to a safe & satisfactory condition before sealing.

If need be I would be more than willing to meet you at your representative at any time on the site to explain in

3

in more detail.

Hoping this letter
meets with favorable
consideration.

Yours faithfully,
Bakerwood.
