Dear Sirs,

**RE: SEWER CONNECTIONS 96-100 PUKUATUA STREET**

Council has a sewer main which runs along the back boundary of three properties, 96, 98 and 100 Pukuatua Street Rotorua, of which you are the owners. A recent camera survey of this sewerline revealed groundwater infiltration entering the sewer from connections to all three properties. At present only 96 Pukuatua Street has a building currently connected to the sewer.

To repair these faults it will be necessary for Council staff to enter your properties, excavate and then reinstate. If you have no objection would you please sign and date this letter before returning in the enclosed envelope. If no reply is received in 21 days of the date of this letter, Council will commence work assuming that you have no objection.

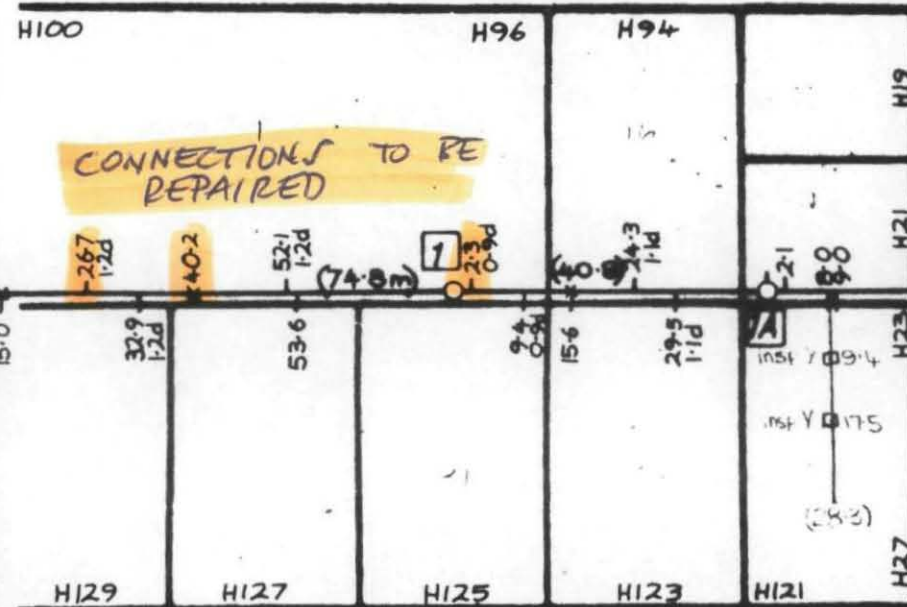

Should you have any queries or concerns, please do not hesitate to contact Grant Williams at the Rotorua District Council.

Yours faithfully

A.G. Williams  
Asset Investigation Technician
