

Fisher & Paykel 60cm Induction Cooktop

This Series 9 cooktop is a joy to use, with the instant response and energy efficiency of induction technology. Immediate heat response and extremely accurate temperature control Cooktop remains cool to touch until a pot or pan is placed on the surface PowerBoost activates a very high heat, bringing liquid to boil in less than a minute Easily control each cook zone with Touch&Slide, including pairing cook zones to create a large SmartZone. Complementary design The subtle black glass and durable matte black detailing are designed to pair with the Minimal style Series 9 Ovens. With premium styling and detailing, these cooktops seamlessly blend with other appliances for a cohesive, considered kitchen design. Enhanced features PowerBoost and GentleHeat deliver either very high or very low heat, fast. Perfect for specialised cooking tasks such as searing meat and melting chocolate. An integrated timer ensures a great result every time. Instant response Go from a boil to a simmer in seconds. Touch&Slide controls react immediately when you adjust the temperature so you don't waste time in the kitchen. Safer choice Induction cooktops only start heating your pot or pan once you've placed it on the ceramic surface and stop as soon as you remove it – so you don't have to worry about curious little fingers or leaving a cook surface on. Easy cleaning The surface around your cookware stays cool when you cook – preventing baked-on spills and making cleaning up a breeze. The ceramic cooktop surface, including anodised detailing for durability, just needs a quick wipe after use to maintain its good looks. Superior efficiency Less heat is wasted during induction cooking because

only the cookware is heated, not the cooktop surface.
This makes induction cooking more energy-efficient
than electric or gas cooktops.

Westinghouse 565L French Door Fridge Freezer

Store your groceries efficiently and keep them fresh for longer using this sleek Westinghouse 565L French Door Fridge Freezer. This appliance features an internal electronic control, a multi-flow air delivery system, FamilySafe lockable compartment, a FlexFresh crisper, Spillsafe glass shelves, FlexStor door bins, and more to accommodate your food storage needs. It also comes with a water dispenser and an automatic ice maker for added convenience. Key Features Convenient French Door Design: Perfect for large households, this

Westinghouse French Door Fridge Freezer comes with a massive capacity and a set of adjustable organisers to help you sort your food items efficiently. Large Capacity: The Westinghouse French Door Fridge Freezer has a total capacity of 565L, consisting of 398L fridge capacity and 167L freezer capacity. Thanks to its massive space, you can now stock up on various goods such as fruits, vegetables, meats, poultryes, frozen goods, drinks, etc. Top-Tier Cooling System: This Westinghouse appliance uses a multi-flow air delivery system so it can evenly distribute cold air all over your groceries. It also comes with a quick chill function, which you can use to instantly cool up a drink or other food items. User-Friendly Interface: Equipped with internal electronic control, this refrigerator enables you to easily recalibrate your fridge freezer's settings anytime you want. It also features a door alarm that alerts you whenever you've left the door open, helping conserve more energy. Efficient Food Organisers: With FlexSpace and FlexStor's adjustable bins and organisers, you can maximise every corner of your appliance. Additionally, it comes with a FamilySafe lockable compartment for added security. No More

Spills: This French Door Fridge Freezer comes with Spillsafe glass shelves for easy cleanups whenever various liquids leak inside. Fresh and Crisp Produce: Perfect for preserving fruits and veggies, this fridge freezer comes with sealed Dual FlexFresh Glide Crispers that has a humidity control to keep your produce fresh for longer. Frost Free Feature: Worry less about defrosting or wiping melted ice from your fridge freezer! This Westinghouse appliance comes with a frost-free feature that prevents ice formation by maintaining optimal temperature levels. Cost-Friendly Energy Consumption: With this Westinghouse Fridge Freezer's 3.5-star energy efficiency, 440 kWh/yr power consumption, and R600a refrigerant, you can conserve less energy and save more on your electricity bills! Enjoy Chilled Drinks: Westinghouse 565L French Door Fridge Freezer comes with an external water dispenser and an internal automatic ice maker, giving you instant access to refreshing water or ice anytime you want.
