

Stone Benchtops

Quartz You Can Trust

Beautiful functional and hygienic, Silestone by Cosentino work surfaces are composed of over 90% natural quartz crystal.

Silestone by Cosentino

Classic or contemporary, inner-city chic or colonial charm... no matter what your style, Silestone provides an elegant, durable and low maintenance surface.

Silestone is made up of more than 90% natural quartz which gives it extraordinary hardness and resistance. It is an excellent surface for kitchen worktops, bathrooms, floorings and for tiling using minimum joins.

Additionally, Silestone is available in a range of stunning colours, it offers a variety of decorative possibilities: from a kitchen worktop to a large commercial project.

Silestone by Cosentino is an investment for the future.

SILESTONE
by COSENTINO

Silestone makes every effort to ensure consistent colour and pattern likeness throughout their individual colour ranges and slabs however, it is advisable where possible that slabs are viewed as part of the final decision making process. Colour samples may vary from actual slab colour.
