

Residential Land Information Memorandum

**23 Earp Street, Johnsonville
(AKA 23 Ironside Road)**

16 July, 2026

Ying Li
77 Ironside Road
Johnsonville
Wellington 6037

Service Request No: 573487
File Reference: 0600 1040894

Land Information Memorandum (LIM)

Please refer to the attached LIM for 23 Earp Street, Johnsonville, as requested by you.

On 14 March 2024 and 12 June 2025, Wellington City Council made decisions on parts of the Proposed District Plan. These have been incorporated into the 2024 Wellington City District Plan (2024 District Plan) from 7 July 2025.

Until appeals are resolved on the 2024 District Plan, both it and the 2000 District Plan may need to be consulted to determine the classification of any existing or proposed activity on the subject property.

Please refer to District Plan section of the LIM for more information.

Yours sincerely

Renée Coffey

Land Information Memorandum

Address	23 Earp Street, Johnsonville – Flat 2 (AKA 23 Ironside Road)
Legal Description	Lot 61 DP 1778 – Flat 2 & Carport DP 34549
Record of Title	WN11D/863

This LIM contains information Wellington City Council is required to provide in accordance with s 44A of the Local Government Official Information and Meetings Act 1987, alongside information the Council deems relevant for the property. It contains information the Council holds on record. Although every effort has been taken to provide accurate information within the LIM, a LIM is only able to report relevant information on the property if the Council has record of it.

No site visits or further investigation into the property have taken place in preparing this LIM. Records may not show any illegal or unconsented work to the land if the Council has not been notified. The property's current and any known prior legal descriptions and addresses have been used to compile the information.

Wellington City Council deems the information in the LIM accurate only to its date of issue. The Council does not accept liability for any errors in this LIM.

The LIM letter is intended to be read in conjunction with the attached documents. For any queries on the content of this LIM, please contact the relevant department. Contact details can be found on page 4 of the LIM.

Note: The land which is the subject of this LIM is part of a cross lease or a unit title subdivision. The Council is required to include in the LIM all relevant information relating to the underlying land. There are multiple units located on the property, and there may be consents or other information included in this LIM relating to different units to the one identified in the Record of Title provided with the application. Council property records consulted in preparing this LIM relate to the underlying land known as Lot 61 DP 1778.

Natural Hazards

Please note, additional natural hazard information can be found in the maps in the LIM attachments.

Climate change is causing natural hazards to become more severe, occur more often, and affect a wider range of areas. For further information on the impacts of climate change on natural hazards, see [Natural Hazards Portal: Climate change](#).

Earthquakes

Information in the 2024 District Plan:

- None.

Information Relating to the Building Act 2004:

- None.

Other information held by Wellington City Council:

- None.

Wind

Information in the 2024 District Plan:

- None.

Information relating to the Building Act 2004:

- None.

Other information held by Wellington City Council:

- The Wind Zone for this property is recorded as “Medium”. Refer to the attached Wind Map.
 - The Wind Zone in terms of NZS3604:2011 for this property was determined by the CLC Consulting Group Limited, Auckland.

Coastal Hazards

Information in the 2024 District Plan:

- None.

Information relating to the Building Act 2004:

- None.

Other information held by Wellington City Council:

- Sites are classified as being in an exposure zone B, C or D depending on the severity of exposure to wind-driven sea salt or geothermal gases. These zones are defined in NZS3604:2011, the NZ Standard for light framed buildings.
- For Wellington City, most sites are either in exposure zone D, which includes the area within 500 metres of the sea, or exposure zone C in terms of NZS3604:2011.

Flooding

Information in the 2024 District Plan:

- None.

Information relating to the Building Act 2004:

- None.

Other information held by Wellington City Council:

- None.

Landslips, Subsidence, Sedimentation, and Erosion

Information relating to the Building Act 2004:

- None.

Other information held by Wellington City Council:

- None.

Information provided by Greater Wellington Regional Council

- [Report \[Wellington Region Climate Change Projections and Impacts\]](#)
- [NIWA - Climate Change and Variability - Wellington Region](#)
- [Digital maps + Report and Summary Info](#)
- [Greater Wellington — LIM hazard information](#)
- [Wellington Region Hazards LIM Map](#)

Hazard information

Greater Wellington Regional Council holds information on natural hazards relevant to the region. Greater Wellington's hazard information has been developed to help the public, local authorities and others manage risk and make informed decisions about their exposure to natural hazards.

Please note this information has been produced at a range of scales and may not be property specific. Local Council District Plans may hold more detailed hazard information and rules on how they are applied in your area. This information is periodically updated as new studies and modelling is carried out.

- Fluvial (river) flood hazard
- Coastal flood hazard
- Tsunami hazard
- Wildfire hazard
- Seismic hazard

Climate change has the potential to exacerbate some of these hazards. More information about future changes to the regional climate can be found on the Greater Wellington website:

<https://mapping1.gw.govt.nz/gw/ClimateChange/> and

https://mapping1.gw.govt.nz/GW/ClimateChange_StoryMap/#

Please contact Greater Wellington Regional Council at info@gw.govt.nz for more information.

For information on fluvial flood hazard please contact the Greater Wellington Regional Council's Flood Advisory Team <https://www.gw.govt.nz/your-region/emergency-and-hazard-management/floodprotection/flood-hazard-advice/>.

Be prepared

If your home, or place of work is vulnerable to a natural hazard we advise that you are prepared, with enough supplies for 7 days and an effective emergency plan. For further guidance please visit the Wellington Regional Emergency Management Office for more information <https://www.wremo.nz/>. It is also recommended that you check that your insurance cover is appropriate for the hazards present.

Drainage and Water

Refer to the attached drainage map and plan for details of private and public drainage.

Refer to the attached water services map.

There are no public wastewater or stormwater mains located within this property.

Water supply is available to this property.

The Council holds no record regarding cross connections at this property.

Approval to build any structure over public drains or water mains is subject to conditions.

Leaks and Faults

This section of the LIM includes any record the Council holds of reported leaks and/or faults on the property or its accessway.

Note, records of leaks and/or faults may be referenced within consent documentation.

On 26 July 2023 a leak outside the property lifting the ground and footpath was reported to the Council. The Council investigated and completed work.

On 4 July 2024 a blockage in wastewater line was reported to the Council. The Council investigated and determined this was a private fault.

Hazardous Substances

No record of hazardous substances exists for this property

Footpath and Roding

Refer to the attached footpath and roading maps.

District Plan

Please see the link for the District Plan information on this property. The 'property report' is available to download from the left side bar.

2024 District Plan Zone:

The property is located in a High Density Residential Zone.

This property is located in a Height Control Area: 22m.

Designations:

This property is located within Designation WIAL1 - Wellington Airport Obstacle Limited Surfaces.

Note: Please refer to the Natural Hazard section of the LIM for information on the District Plan's natural hazard material.

Please note, the above information only identifies zones and designations applying to this property. For information about other planning controls applying to this site and the wider area, please refer to the 2024 District Plan.

Until appeals are resolved on the 2024 District Plan, both it and the 2000 District Plan should be consulted to determine the classification of any existing or proposed activity on the subject property. Please see the following webpage for more information:

[Decision making and status of provisions - Plans, policies and bylaws - Wellington City Council](https://wellington.govt.nz/your-council/plans-policies-and-bylaws/district-plan/proposed-district-plan/decision-making-and-status-of-provisions) - <https://wellington.govt.nz/your-council/plans-policies-and-bylaws/district-plan/proposed-district-plan/decision-making-and-status-of-provisions>

Resource consents may be necessary for activities that are not permitted activities. The District Plan can be viewed online at Wellington City Libraries, or visit the Wellington City Council website (see link below).

[2024 District Plan ePlan - https://eplan.wellington.govt.nz/proposed/](https://eplan.wellington.govt.nz/proposed/)

[2000 District Plan ePlan - https://eplan.wellington.govt.nz/eplan/](https://eplan.wellington.govt.nz/eplan/)

District Plan Changes

From time to time the Council makes amendments to the contents of the District Plan by publicly notifying District Plan changes. These changes are relevant on the date they are publicly notified. When they are first released, the changes are referred to as 'proposed Plan Changes'. Once the plan change process is completed, they become 'operative plan changes'.

For details of any plan changes that may affect this property, please visit the Wellington City Council website (as above).

Plan change 1 to the 2024 District Plan

On 20 November 2025 the Council notified Plan Change 1 to the 2024 District Plan. This plan change involves:

- Minor amendments to provisions to support clear plan implementation and fix minor errors;
- Specific changes to zoning of some properties; and
- Updated documents incorporated into the District Plan by reference - Code of Practice for Land Development 2025 and Wellington Water Regional Standard v3.1 December 2024.

In addition, Plan Change 1 involves amendments to flood hazard mapping.

If there are flood hazard or zoning mapping amendments proposed for this property they will be shown on the district plan property report included in this LIM.

Modifications to flood hazard mapping and natural hazards provisions have legal effect.

The rest of the plan change does not have legal effect.

Information on the plan change is available on the Council's website: [Plan Change 1 - Plans, policies and bylaws - Wellington City Council](#)

Historic Heritage and Notable Trees

Scheduled Historic Heritage and Notable Trees in the 2024 District Plan

Including heritage buildings, heritage structures, heritage areas, sites and areas of significance to Māori, and notable trees.

There are no scheduled historic heritage items in the 2024 District Plan affecting this property.

Heritage New Zealand Pouhere Taonga Identification

The Council has not been given notice that this property is included in the New Zealand Heritage List of Historic Places, Historic Areas, Wāhi Tūpuna, Wāhi Tapu, and Wāhi Tapu areas.

Heritage Orders Under Part 8 of the Resource Management Act 1991

There are no heritage orders on this property.

Heritage New Zealand Pouhere Taonga Archaeological Sites

There is not a recorded archaeological site on this property.

This is based on data from the New Zealand Archaeological Association.

To find out more about archaeological sites in Wellington, legal implications for your property and FAQs, go to [Advice and guidance - Heritage - Wellington City Council](#) or contact WCC on 04 499 4444.

For further information, go to www.heritage.org.nz/archaeology: [Archaeology in Aotearoa New Zealand | Heritage New Zealand Pouhere Taonga](#).

Resource Consents

There are no Subdivision consents for this property.

There are no Land Use consents for this property.

There are no other types of consents for this property.

Resource Consents for adjoining properties: None.

Town Planning and/or Local Government Act 1974

There is a record of consents for this property.

Council granted approval in principle dated 15 May 1969, subject to conditions, to erect three two-person flats as additions to a single dwelling unit,

Council granted consent dated 13 November 1981 pursuant to the provisions of Section 74 of the Town and Country Planning Act 1977, subject to conditions, to extend the dwelling by 10m² to provide an additional bedroom, entrance area and carport with dispensation in respect of the 3m yard requirement for the erection of the carport.

Council approved dated 14 July 1982, subject to conditions, the alteration of the position of the carport using the same drive-on access.

The Council holds information regarding the subdivision of this property prior to 1990.

No documents relating to this consent have been attached. If required, they can be requested from the Wellington City Archives: <https://wellington.govt.nz/arts-and-culture/archives>

Legal Documents

There are no legal documents attached.

Rates and Levies

Rates	Please note that this property's rates are yet to be struck for the new financial year. There are no outstanding rates for this property.
Water Rates	This property does not have water rates associated with it.
Sludge Levy	Please note that the annual sludge levy for this property is yet to be struck for the new financial year.

As of 1 July 2026, water charges are no longer included in Wellington City Council general rates bills. Customers will now receive separate water services bills from Tiaki Wai.

The type of bill you receive will depend on whether your property has a water meter. Non-metered properties will receive a council rates bill plus a Tiaki Wai water bill; metered properties will receive a Council rates bill, a Tiaki Wai drinking water bill (based on usage), and a Tiaki Wai wastewater/stormwater bill.

Please see <https://www.tiakiwai.co.nz/billing> for further information.

Properties in the rating categories BGR1, BGR2, BGC1, and BGC2 are subject to an annual sludge levy for the purpose of funding certain costs relating to the construction of a sludge minimisation facility at Moa Point, Wellington. The levy period is 1 July 2024 to 30 July 2057. Liability for the levy is assessed in accordance with clauses 13 to 19 of the Infrastructure Funding and Financing (Wellington Sludge Minimisation Facility Levy) Order 2023.

For information on the sludge levy billing and rating categories, please see: [Billing categories - Rates - Wellington City Council and Rates for 2024/2025 - Rates - Wellington City Council](#).

Refer to attached report for further information on rates and levies.

For valuation information, please contact Quotable Value: [QV - Discover your property value](#).

Building

Building Permits

There is a record of building permits for this property.

Please refer to the attached copies of computer details for building permits.

Building, plumbing, and drainage permits issued under the bylaws made pursuant to the Local Government Act 1974 have now expired. The bylaws relating to building permits were superseded by the Building Act 1991 and subsequently by the Building Act 2004.

Unauthorised or incomplete building, plumbing and drainage permitted work done prior to the implementation of the Building Act 1991 in January 1993, now has the status of “an existing situation”. Unless the building is either dangerous or insanitary, as defined under sections 121 and 123 of the Building Act 2004, the Council is precluded from taking any further action to require the owner to complete the work in accordance with the original building permit.

It is not practical to copy the information relating to permits and/or completed consents held at Wellington City Archives. If you want to order copies of the permits and/or consents please order through [Building consent search - Property - Wellington City Council](#).

Building Consents

There is no record of building consents for this property.

Building consents replaced building permits following the implementation of the Building Act 1991, and subsequently the Building Act 2004.

Under Schedule 1 of both Acts, some types of building work are exempt from the need to obtain a building consent. If building work that needs consent was carried out after January 1993 without consent first being obtained, that work is not authorised and the Council may require the property owner to:

- Demolish or remove the work,
- Upgrade to building code requirements (consent may be required, contact Building Compliance and Consents on 04 801 4311),
- Apply for Certificate of Acceptance (refer to the Certificate of Acceptance section below).

The Council may prosecute persons who contravene or fail to comply with the Act or with a notice issued under the Act (for example a notice to rectify issued under the Building Act 1991 or a notice to fix issued under the Building Act 2004).

Certificates of Acceptance

There is no record of a Certificate of Acceptance relating to building work at this property.

Section 96 of the Building Act 2004 provides for a territorial authority (i.e. a council) to issue a Certificate of Acceptance in certain circumstances. A Certificate of Acceptance is limited to the extent to which the territorial authority was able to inspect the building work in question.

Application for a Certificate of Acceptance may be made in the following circumstances:

- Work was carried out without a building consent, where a building consent was required but not obtained
- Work was carried out under urgency
- A private building certifier refuses or is unable to issue a Code Compliance Certificate, and no other building consent authority will agree to issue a Code Compliance Certificate.

Compliance Schedule and Building Warrant of Fitness

There is no compliance schedule or building warrant of fitness for the buildings on this property.

Swimming Pools

There is no record of a swimming pool or spa pool at this property.

The Building Act 2004 requires the property owner to ensure that every residential pool that is filled or partly filled with water must have physical barriers that restrict access to the pool by unsupervised children under 5 years of age.

Definitions of what constitutes a pool and details of the safety requirements are set out in the Act.

A building consent is required for the installation of a pool fence and may be required for the installation of any pool itself.

The Council has a programme to audit the on-going compliance of pool fences and so pools will be subject to periodic inspections to confirm compliance. Property owners will be charged for time spent by Council officers in audits.

Complaints

There is no record of unresolved complaints for this property.

Building Resilience

Earthquake Prone Buildings

The buildings on this property not considered earthquake-prone.

The national framework for managing earthquake-prone buildings took effect in July 2017 via changes to the Building Act 2004, along with regulations and the Earthquake-prone Building Methodology. This change has removed the requirement for councils to have individual earthquake-prone building policies and creates a single national policy.

These earthquake-prone building provisions apply to non-residential buildings and some residential buildings if they are:

- Two storeys or more and have three or more household units, or
- Two storeys or more and used as a hostel, boarding house or other specialised accommodation

Other specific exclusions include farm buildings, retaining walls, fences, certain monuments, wharves, bridges, tunnels and storage tanks.

Under the Council's previous Earthquake-prone Building Policy 2009, any pre-1976 commercial building or any pre-1976 residential building which is two or more stories high and contains three or more residential units was assessed to determine an earthquake-prone status. The status resulting from these assessments remains active.

This building is not considered earthquake-prone.

This status comes as a result of an assessment process carried out under Council's previous earthquake-prone building policy 2009 which Council is reasonably satisfied qualifies as a previous assessment in terms of the current EPB Methodology. The original assessment process was part of a programme of assessments and subject to a moderation process and oversight by suitably qualified engineers.

If there are changes to legislation, the loading standard, or if the Council receives further information, a building may require an assessment or reassessment to consider whether it is earthquake prone.

It should also be noted that where a change of use is proposed for the building, structural strengthening work is required to most buildings to upgrade the building to meet current codes.

Refer to the attached documents (including Letter to Owner and IEP Assessment) for further information.

Background:

Council-initiated Initial Evaluation Procedures (IEPs) and assessments were carried out solely as a screening tool in terms of the Council's previous Earthquake-prone Building Policy. The process was developed in line with the New Zealand Society for Earthquake Engineering document 'Recommendations for the Assessment and Improvement of the Structural Performance of Buildings in Earthquakes'. Council-initiated IEPs and assessments were carried out as a screening tool and should not be relied on by anyone for any other purpose; a detailed engineering inspection and/or engineering calculations may lead to a different result or seismic grade.

A Detailed Seismic Assessment (DSA) includes some calculation and/or computer analysis and should provide a more accurate indication of the seismic performance of a building.

In some cases, a building owner or body corporate may have already received a DSA and may be available for review. Parties should seek their own independent engineering advice.

Please note, select personal identifying information may have been removed from the attachments pursuant to the Privacy Act 2020.

Verandahs

Wellington City Council is undertaking assessments of verandahs in Wellington City in accordance with the Public Places Bylaw 2022.

The intention of the verandah-related rules in the bylaw is to ensure that all verandahs are maintained in a waterproof condition and in a good state of repair.

Unreinforced Masonry Buildings

Following the Hurunui/Kaikōura earthquake on November 2016, the Ministry of Business Innovation & Employment (MBIE) set up an initiative to improve the seismic performance of unreinforced masonry buildings (URM) in high-risk areas, including Wellington. The initiative requires owners of certain buildings to take action to secure unreinforced masonry parapets and facades by March 2018. This is an amendment to the Building Act 2004 and was passed February 2017 under an Order in Council.

This relates to unreinforced masonry buildings with street-facing parapets and/or facades on busy, high-traffic areas (pedestrian or vehicles) that are already known to be vulnerable in the event of an earthquake.

Weathertightness

The Council has not received any formal notification of Weathertightness issues for this property.

Pursuant to section 124 of the Weathertight Homes Resolution Services Act 2006, the Council will report formal notification of possible water ingress issues at a property from one of the following sources:

- Ministry of Business Innovation and Employment (MBIE)
- Weathertight Homes Tribunal

The Council may also include information in this section where it has received a notification that it considers relates to water ingress issues from one of the following sources:

- High or District Court
- Written notification from the owner of the property or their agent
- Where the owner has applied to MBIE for a Determination and the report carried out by MBIE has identified areas of water ingress

The Council may hold other information about possible weathertight issues with the dwelling, e.g. via notes of phone calls, emails, or other correspondence or documents such as building consent applications. The Council may, at its discretion, include this information under the "Unresolved Complaints" section of this LIM.

If you have any concerns, we recommend that you seek independent advice from a suitably qualified person such as a building surveyor, and/or speak to the owners of the property.

Encroachments and Licences

There is no encroachment licence for this property.

Property owners are legally required under cl 19 of the Public Places Bylaw to have a valid encroachment license for any private occupation of legal road. Encroachments typically require an annual fee, and when a property changes ownership an administration fee is charged.

Properties with multiple units under a cross lease or unit title subdivision may have encroachment licenses relating to specific units. A LIM is required to include information for all units on the underlying land, so these encroachment licenses are included under this section.

Note: Encroachments are not permitted on parks or reserve land. If one exists, owners are required to contact the Council and remove the encroachment at the owner's cost. In some instances, dwellings may have historically encroached on an adjacent reserve. In these instances, removal will be required at the time of any future demolition or major reconstruction. For more information see: [Encroachments - Wellington City Council](#).

Land and Structure

The maintenance of the common property is the responsibility of the owners

Access

The owner is responsible for maintaining the vehicle accessway and/or path out to and including the kerb crossing.

Service Request No. 201470
Property ID: 1040894

Dear Sir/Madam

Earthquake Prone Building policy assessment of buildings

Site Address: 23 Earp Street
Legal Description: LOT 61 DP 1778

In May 2006, Wellington City Council adopted an Earthquake Prone Buildings Policy. Under this policy all buildings to which the Building Act 2004 provisions apply and that have been built or strengthened to pre-1976 structural design codes, are being assessed using the Initial Evaluation Process (IEP) set out in the New Zealand Society for Earthquake Engineering *Recommendations for the assessment and Improvement of the Structural Performance of Buildings in an Earthquake*.

The building at 23 Earp Street has been assessed and the IEP result is greater than 34 percent. The Building Act 2004 and the associated regulations currently define an earthquake prone building as a building whose strength is 33 percent or less of the current seismic loading standard(NZS1170.5:2004). On the basis of this result Council advises that this building has been identified as unlikely to be earthquake prone.

If there are changes to legislation, the loading standard or Council receives further information the building may require reassessment to consider whether it is earthquake prone.

Council has recorded the information about this building and no further action under the Council's Earthquake prone building policy is proposed. This information will be made available on Land Information Memorandum (LIMS).

Yours faithfully

Tim Armstrong

Others

Seismic Zone:**b) Soil Type**

From NZS1170.5:2004, CI 3.1.3 :

- NZS1170.5:2004
- ☒ A or B Rock
☐ C Shallow Soil
☐ D Soft Soil
☐ E Very Soft Soil

 From NZS4203:1992, CI 4.6.2.2 :
 (for 1992 to 2004 only and only if known)

- NZS4203:1992
- ☒ Rigid
☐ Intermediate or Not Known

c) Estimate Period, T

Comment: approx. 3.2m storey height

Moment Resisting Concrete Frames:

$$T = 0.09h_n^{0.75}$$

Moment Resisting Steel Frames:

$$T = 0.14h_n^{0.75}$$

Eccentrically Braced Steel Frames:

$$T = 0.08h_n^{0.75}$$

All Other Frame Structures:

$$T = 0.06h_n^{0.75}$$

Concrete Shear Walls

$$T = 0.09h_n^{0.75} / A_c^{0.5}$$

Masonry Shear Walls:

$$T \leq 0.4\text{sec}$$

User Defined (input Period):

Where h_n = height in m from the base of the structure to the uppermost seismic weight or mass.**Longitudinal Transverse**
 $h_n = 3.2$ m
 $A_c = 1.00$ m²

0.40	0.40	Seconds
------	------	---------

d) (%NBS)_{nom} determined from Figure 3.3

Longitudinal:	3.63%
Transverse:	3.63%

Note 1: For buildings designed prior to 1965 and known to be designed as public buildings in accordance with the code of the time, multiply (%NBS)_{nom} by 1.25.

N/A

 For buildings designed 1965 - 1976 and known to be designed as public buildings in accordance with the code of the time, multiply (%NBS)_{nom} by 1.33 - Zone A, or by 1.2 - Zone B

Note 2: For reinforced concrete buildings designed between 1976-84 multiply (%NBS)_{nom} by 1.2

N/A

Note 3: For buildings designed prior to 1935 multiply (%NBS)_{nom} by 0.8 except for Wellington where the factor may be taken as 1.

N/A

Note 4: If the building is known to have been strengthened, enter the percentage of the code selected in 2.1 a) that the building has been strengthened to for each direction.

	Longitudinal Direction
	Transverse Direction

(%NBS)_{nom}

Longitudinal:	3.63%
Transverse:	3.63%

(Scaled as per Notes 1 to 4)

2.2 Near Fault Scaling Factor, Factor AIf $T \leq 1.5\text{sec}$, Factor A = 1a) Near Fault Factor, $N(T,D)$
(from NZS1170.5:2004, Cl 3.1.6)Longitudinal: 1
Transverse: 1b) Near Fault Scaling Factor = $1/N(T,D)$ Factor A
Longitudinal: 1.00

Transverse: 1.00

2.3 Hazard Scaling Factor, Factor Ba) Hazard Factor, Z , for site
(from NZS1170.5:2004, Table 3.3)

Site Area :

Wellington CBD (north of Basin)

 $Z = 0.4$ $Z_{1992} = 1.2$

b) Hazard Scaling Factor

For pre 1992 = $1/Z$ For 1992 onwards = Z_{1992}/Z (Where Z_{1992} is the NZS4203:1992 Zone Factor from accompanying Figure 3.5(b))

Factor B

2.50

2.4 Return Period Scaling Factor, Factor C

a) Building Importance Level

(from NZS1170.0:2004, Table 3.1 and 3.2)

Choose Importance Level☒ 1 ☐ 2 ☐ 3 ☐ 4

Comment: Residential structure

b) Return Period Scaling Factor from accompanying Table 3.1

Factor C

1.00

2.5 Ductility Scaling Factor, Da) Assessed Ductility of Existing Structure, μ

(shall be less than maximum given in accompanying Table 3.2)

 $\mu = 2.00$ Longitudinal Direction $\mu = 2.00$ Transverse Direction

max = 2

Comment: Pre-dominantly timber structure

b) Ductility Scaling Factor

Longitudinal Transverse

For pre 1976 = k_{μ} k_{μ}

1.57 1.57

For 1976 onwards = 1 1

(where k_{μ} is NZS1170.5:2004 Ductility Factor, from accompanying Table 3.3)

Factor D

Longitudinal: 1.57

Transverse: 1.57

2.6 Structural Performance Scaling Factor, Factor Ea) Structural Performance Factor, S_p
from accompanying Figure 3.4 $S_p = 0.7$ Longitudinal Direction $S_p = 0.7$ Transverse Directionb) Structural Performance Scaling Factor
= $1/S_p$

Factor E

Longitudinal: 1.43

Transverse: 1.43

2.7 Baseline %NBS for Building, (%NBS)_b
(equals (%NSB)_{nom} x A x B x C x D x E)

Longitudinal : 20%

Transverse : 20%

(Refer Table IEP - 1 for Step 1; Table IEP - 2 for Step 2; Table IEP - 4 for Steps 4, 5 and 6)

Street Number & Name:	23 Earp Street	Ref. WCC, Lot #42
AKA:		By: Beca-FAA
Direction Considered:	a) Longitudinal & b) Transverse	
(Choose worse case if clear at start. Complete IEP-2 and IEP-3 for each if in doubt)		Date: 3/02/2009

a) Longitudinal Direction

Step 3 - Assessment of Performance Achievement Ratio (PAR)

(Refer Appendix B - Section B3.2)

Critical Structural Weakness	Effect on Structural Performance (Choose a value - Do not interpolate)	Building Score
3.1 Plan Irregularity Effect on Structural Performance ☐ Severe ☐ Significant ☒ Insignificant Comment:	Factor A	1.0
3.2 Vertical Irregularity Effect on Structural Performance ☐ Severe ☐ Significant ☒ Insignificant Comment:	Factor B	1.0
3.3 Short Columns Effect on Structural Performance ☐ Severe ☐ Significant ☒ Insignificant Comment:	Factor C	1.0
3.4 Pounding Potential (Estimate D1 and D2 and set D = the lower of the two, or =1.0 if no potential for pounding)		

a) Factor D1: - Pounding Effect
 Select appropriate value from Table

Note:
 Values given assume the building has a frame structure. For stiff buildings (eg with shear walls), the effect of pounding may be reduced by taking the co-efficient to the right of the value applicable to frame buildings.

Factor D1 For Longitudinal Direction:				1.0
Table for Selection of Factor D1	Severe 0 < Sep < .005H	Significant .005 < Sep < .01H	Insignificant Sep > .01H	
Alignment of Floors within 20% of Storey Height	☐ 0.7	☐ 0.8	☒ 1	
Alignment of Floors not within 20% of Storey Height	☐ 0.4	☐ 0.7	☐ 0.8	
Comment:	Freestanding structure			

b) Factor D2: - Height Difference Effect
 Select appropriate value from Table

Factor D2 For Longitudinal Direction:				1.0
Table for Selection of Factor D2	Severe 0 < Sep < .005H	Significant .005 < Sep < .01H	Insignificant Sep > .01H	
Height Difference > 4 Storeys	☐ 0.4	☐ 0.7	☒ 1	
Height Difference 2 to 4 Storeys	☐ 0.7	☐ 0.9	☐ 1	
Height Difference < 2 Storeys	☒ 1	☐ 1	☐ 1	
Comment:	Freestanding structure			

Factor D 1.0

(Set D = lesser of D1 and D2 or..
 set D = 1.0 if no prospect of pounding)

3.5 Site Characteristics - (Stability, landslide threat, liquefaction etc)

Severe Significant Insignificant
☐ 0.5max ☐ 0.7 ☒ 1

Factor E 1.0

Comment:

3.6 Other Factors

For ≤ 3 storeys - Maximum value 2.5,
 otherwise - Maximum value 1.5. No minimum.

Factor F 2.0

Record rationale for choice of Factor F:

Well covered walls

3.7 Performance Achievement Ratio (PAR)
(equals A x B x C x D x E x F)

PAR (Longitudinal): 2.00

b) Transverse Direction
