

The Master Build 10-Year Guarantee

Your new build or renovation needs the protection of a Master Build 10-Year Guarantee.

Give yourself the peace of mind you deserve and make sure you ask your builder for a Master Build 10-Year Guarantee.

Your home build or renovation is most likely the biggest investment of your lifetime. Make sure you protect it.

There have also been a lot of changes in the building warranty market. Many of our competitors are no longer offering the same level of coverage as the Master Build Services Guarantee. Our Guarantee ensures your customers are protected for 10 years, regardless of whether you are still in business. This is a real concern for customers, and we are one of the only organisations that provides this product with this level of cover.

The Master Build 10-Year Guarantee has protected more than 140,000 homes over the past 25 years. Whether your new build or renovation is big or small, our guarantee can be tailored to suit your needs.

Only a Registered Master Builder can offer you the peace of mind of a Master Build 10-Year Guarantee. Find out more [here](#).
