Hi Cheryl,

Electricity Supply To: 25 Wyborn Road, Te Aroha

Lot 1 has an existing connection from the Powerco Network.

An upgrade will be required to provide a suitable connection point for Lot 2 of this development.

There will be a cost to complete this work.

However, as Lot 2 is a large rural lot, the specific requirements, price and design would be best determined when or if an additional supply is requested.

There would be a cost to complete any such work, and the customer would contact a Powerco approved contractor for a price and design at the time the supply is required.

Please be advised, the information contained herein is current as of the date of this letter, but could be subject to change over time.

Many thanks,
Zoe

Hi Zoe

Thank you for your email, our client has just sent through the ICP number for Lot 1 being 0000042201UN071.

We look forward to receiving the resource consent letter in due course.

Many thanks

Hi Cheryl,

Can you please provide the ICP number for the dwelling on Lot 1. I have searched the address etc and I cannot find an ICP number under this address.

Once I have confirmation of this, I will verify it in our system and issue a resource consent letter.

Many thanks!

Subject: [#08829] Confirmation of Power Supply

Good morning Zoe

Surveying Services have been engaged by its client: T Manning, to subdivide their land at the following property:

Details are:

Our Project Ref: 08829

Address of Property: 25 Wyborn Road, Te Aroha

We are at the resource consent stage and require confirmation for Council that a suitable power supply exists.

Please find attached a copy of the scheme plan. The new Lot 1 has an existing dwelling with power and Lot 2 will remain as farmland so our clients are keen for a Consent Notice to say power was not required for Lot 2 at the time of subdividing. Would Powerco be happy with this?

We thank you for your support and look forward to your response in due course.

Kind regards
