Dear Sir

**PROPOSED GARAGE FOR MJT ROBERTSON
182 CARTERS ROAD, AMBERLEY**

We have undertaken a soils test at the site of the proposed garage, and reviewed the plans for the garage, and make the following recommendations:

- That the foundations be dug down to the fine sand layer at a depth of about 400mm,
- That either the soft silty material be replaced from beneath the floor slab with compacted granular fill or,
- That the worst of the material be removed and construction undertaken only when the material is dry and 665 reinforcing mesh be incorporated into the floor.
- That the Flitch Beam Lintel be connected to the bond beam with a Pryda SBK39A or similar bolted structural bracket.

Enclosed is your investigation results and if you have any queries you are most welcome to contact me.

Yours faithfully

PG Bond
Senior Engineer

Application for Building Consent Building Department

Section 33, Building Act 1991

HURUNUI
District Council

Please read ALL sections of this application

Standard of Documentation:

-  On clean paper no smaller than A4.
-  Drawn in permanent ink using a ruler to a commonly recognised scale, i.e. 1:10, 1:20, 1:50, 1:100 and 1:200 for site plans.
-  Provide all documentation in duplicate, or triplicate if builder is engaged.
-  Where YES / NO boxes, one or other must be marked.

Privacy Act

The information you provide on this building consent application form will be collected and held by the Hurunui District Council. Collection of this information is authorised under Building Act 1991. It may be used by the Council in any matters relating to its statutory function. Information collected will be copied except when an owner or subsequent owner has marked as being confidential because of the need to safeguard the copyright of the plan or specification or because of any requirements of the owner of the building relating to security of the building.

Identify Construction Arrangements

Is a builder responsible for the completion of the project in accordance with the Building Consent drawings and Specifications?

Yes ☒ No ☐

If **NO** give details of extent of construction arrangements: (tick box)

- | | |
|--|---|
| ☐ Labour only (contracts) | ☐ Separate project manager |
| ☐ Owner to arrange subcontractors | ☐ Architect and / or Engineer controlled |
| ☐ Owner builder | |

If **YES** give details of extent of builders responsibility: (tick box)

- ☒ Whole job to completion – Code Compliance Certificate issue
- ☐ Partial completion: (specify who is responsible to complete works and amount remaining)

Mechanical Systems

Does the project include mechanical systems, fire protection systems or emergency warning systems etc. for which a Compliance Schedule is required?

If **YES** identify these features on form BA21. Yes ☐ No ☐

Project Details

Only complete this section if you have **NOT** applied separately for a Project Information Memorandum

The project involves the following matters: (tick each applicable box, and attach relevant information).

☐

Location in relation to legal boundaries, and external dimensions of new, relocated or altered buildings (site plan with elevations, topography attached).

☐

Details of any known or potential erosions, avulsion, falling debris, filled ground, subsidence, slippage, alluvion, inundation, hazardous contaminants on or near the site.

Yes

No

☐☐

New provisions to be made for vehicular access, including parking (to be shown on site plan)

☐☐

Provisions to be made in building over or adjacent to any road or public place.

☐☐

New provisions to be made for disposing of stormwater and wastewater (to be shown on site plan).

☐☐

Precautions to be taken where building work is to take place over existing drains or sewers or in close proximity to wells or water mains.

☐☐

New connections to public utilities, i.e. water supply, stormwater systems, wastewater systems.

☐☐

Provisions to be made in any demolition work for the protection of the public, suppression of dust, suppression of noise, disposal of debris and disconnection from public utilities.

☐☐

Details of any cultural heritage significance of the building or building site, including whether it is on a Marae, or Waahi Tapu.

☐☐

Copy, or reference to any Resource Consent or planning approval for this project.

☐☐

Details of volume of proposed excavations: include volumes for site preparation, basement and driveway.

Building Details

Complete this section in **ALL** cases.

This application is accompanied by (tick each applicable box, attached relevant documents)
Drawings, specifications and other documents according to which building is proposed to be constructed to comply with the provisions of the Building Code, with supporting documents, if any, including -

☐

Building certificates (e.g. by Independent Building Certifiers).

☐

Producer Statements (specific Engineers design).

☐

References to accreditation certificates issued by the Building Industry Authority.

☐

References to determinations issued by the Building Industry Authority.

☐

Proposed procedures, if any, for inspections during construction e.g. specialist consultant.

Application Details

Has a Project Information Memorandum been issued by the Council for this project? Yes ☐ No ☒

If YES, add the Project Information Memorandum (PIM) number here:
