NOTICE TO APPLICANTS

Please note that when a Water Connection Application is made at the same time as a Building Consent Application, it will not be processed until the **final building consent fee** has been paid. At that time, the Water Connection will be receipted and processing will begin. (All other Standard Water Connection Applications will not be processed until the application fee is paid in full. Non-Standard Connections requiring a quotation will only be installed after an "Authorisation to Charge" form has been signed by the applicant).

Please allow 8 working days from the processing start date (as detailed above), until the installation of the Water Connection. However, if the installation of the connection requires work to be carried out within the carriageway, footpath or on a State Highway (includes Old Taupo Road, Amohou Street, Sala Street etc.), then Council is required to obtain a Street Opening permit before work may commence. In this situation you need to allow 23 days. Delays will also occur if insufficient information is provided on the form (such as no location specified or if it is difficult to identify the property to be connected) or if the inappropriate fee has been paid. It is therefore important to provide a day time contact phone number.

Should the Water Connection be required sooner, then the Water Application should be made separately to the Building Consent - and paid in full at that time. Please note that should the building consent be declined, the Water Application Fee can not be refunded if the connection has been installed.

WATER SUPPLY REQUIREMENTS

Central / Eastern / Ngongotaha

Domestic (land area 2000 m ² or less)	Unmetered
Domestic (land area greater than 2000 m ²)	Metered with Backflow Preventer
Commercial / Industrial	Metered (may also require Backflow Preventer)

(Note: More than two flats in single ownership is considered commercial)

Rotoiti / Rotoma / Hamurana

Metered (Requires a Backflow Preventer if land area is greater than 2000 m²)

Mamaku

Metered (Requires a Backflow Preventer if land area is greater than 2000 m²)

(Note: May only connect to the supply if the contribution has been paid - check with Engineers Dept.- Asset Section)

Okareka

Metered *Note: Special Fee applies for this Supply*

Part of the connection payment was included with the Capital Contribution and therefore only the balance of the connection fee is required

(This special fee applies only where the service pipe was installed to the boundary during the construction of the Water Supply - a normal metered connection fee will be charged if the service pipe has to be installed, water main tapped etc. by Council Staff.)

Kaharoa / Reporoa*

Farm Supplies

Metered - (Backflow Preventer and Flow Restrictor required)

Some Kaharoa properties may still be required to pay a scheme contribution.

* Reporoa Urban Settlements - Metered

Mihi / Whirinaki

Metered - (Backflow Preventer required)

Mihi - Flow Restrictor required for properties supplied by the Sangro Booster Station.

Whirinaki - Flow Restrictor required for properties supplied off the Rehi Road extension.
