P O Box 207
GORE

Dear Sir

I refer to the subdivision application and land use consent you have lodged on behalf of **V B Frank Properties Ltd.** This matter was considered under delegated authority by me, David Pullar, Hearing Commissioner, in consultation with Keith Hovell, Planning Consultant

DESCRIPTION OF PROPOSAL

This application relates to land located at 7 Kerwood Place, Gore containing approximately 1,291 square metres, with frontage also to Kakapo Street. The legal description of the land is Lot 30 DP 9224, Block LXXI, Hokonui Survey District, as described in Certificate of Title SL5D/345.

The applicant wishes to subdivide the land to enable the development of the land in two stages:

- Stage I – creation of two new residential allotments, with one block of units on each site
- Stage II – creation of a Cross Lease development for each new allotment, with two residential units on each of those allotments.

It is proposed to create:

- Lot 1 containing some 415 m², with frontage directly onto Kerwood Place and with physical access directly onto that street by way the existing crossing. With a net site area of 415 m² a site coverage of 40% will allow for a building footprint of 166 m² within the allotment.
- Lot 2 containing some 876 m² with a frontage by way of the entry strip onto Kakapo Street, by way of the existing crossing. With a net site area of 680 m² (876 m² less entry strip of 196 m²) a site coverage of 40% will allow a building footprint of 272 m² within this allotment.

Stage II is proposed to be developed as follows:

- Lot 1 – creation of a Cross Lease development to create Flat 1 (together with the associated area restricted as to user, Yard 1) and Flat 2 and 2A (together with associated area restricted as to user, Yard 2) including an area designated as Common (for the use of both flats). This development is over the existing buildings.
- Lot 2 – creation of a Cross Lease development to create Flat 3 (together with the associated area restricted as to user, Yard 3) and Flat 4 (together with associated area restricted as to user, Yard 4) including an area designated as Common (for the use of both flats). This development is also over the existing buildings.

The applicant also applies for an associated land use consent to cover the following matters:

- (a) Lot 1 has an area of 415 m², but if the Common Area of some 46 m² is excluded then the allowable footprint would be 40% of 369 m² or 148 m². Under Rule 5.9.4 resource consent approval is required as a **restricted discretionary activity**, with Council's discretion limited to the matter of non-compliance.
- (b) Flat 1, Flat 2 and Flat 2A has a building footprint of 152 m², which is greater than the allowable footprint of 148 m². Under Rule 4.9.1(2) resource consent approval is required as a **restricted discretionary activity**, with Council's discretion limited to the matter of non-compliance.
- (c) Lot 2 has a net site area of 680 m² but if the Common Area of some 71 m² is excluded then the allowable footprint would be 40% of 609 m² or 244 m². Under Rule 4.9.1(2) resource consent approval is required as a **restricted discretionary activity**, with Council's discretion limited to the matter of non-compliance.

It is noted that Flat 3 and Flat 4 has a building footprint of 152 m², which is less than the allowable footprint of 244 m².

CONSULTATION

Having regard to the district plan provisions enabling subdivision of land without minimum areas, I am satisfied that as the development is legalising an existing situation the effects of the subdivision and land use application will be no more than minor, and that no person could reasonably claim to be adversely affected by it. As a consequence no written approvals have been required by Council and no notification of the application has been undertaken.

MATTERS FOR CONSIDERATION

The land subject to this application is zoned Residential. Under Rule 8.10(3) the subdivision is a discretionary activity. As noted above, land use consent is required under Rules 5.9.4 and 4.9.1(2) as a restricted discretionary activity. Overall, the application is considered as a **discretionary activity**.

In considering this application, regard has been given to sections 104 and 104B, the relevant portions of which state:

104 Consideration of applications—

- (1) When considering an application for a resource consent and any submissions received, the consent authority must, subject to Part 2, have regard to—
- (a) any actual and potential effects on the environment of allowing the activity; and
 - (b) any relevant provisions of—
 - (i) a national policy statement;
 - (ii) a New Zealand coastal policy statement;
 - (iii) a regional policy statement or proposed regional policy statement;
 - (iv) a plan or proposed plan; and
 - (c) any other matter the consent authority considers relevant and reasonably necessary to determine the application.

104B Determination of applications for discretionary or non-complying activities—

After considering an application for a resource consent for a discretionary activity or non-complying activity, a consent authority—

- (a) may grant or refuse the application; and
- (b) if it grants the application, may impose conditions under section 108.

STAFF COMMENTS

Council's Asset Manager Utilities comments on the application as follows:

New Lot 1

Stormwater –discharges to the kerb and channel in Kerwood Place.

Foul drainage –connects to the foul sewer in Kerwood Place.

New Lots 2

Stormwater – Drainage plans show stormwater drain heading to Kakapo Street. May discharge to kerb and channel in Kakapo Street.

Foul drainage –connects to the foul sewer in Kakapo Street.

Notes:

New Lot 1 – Has a water supply from Kerwood Place.

New Lot 2 – Has a water supply from Kakapo Street.

DECISION

Consent SC 15/2009 for the subdivision is **granted** subject to the following conditions:

Condition 1 The subdivision be undertaken in conformity with Scheme Plan 5505.

Condition 2 Easements shall be created as set out in the application for subdivision (dated 26 August 2009) and as required.

Consent LU 2009/19 for land use consent is **granted** without condition.

RIGHT OF OBJECTION:

Pursuant to Section 357A of the Resource Management Act 1991 the applicant or consent holder has a right of objection in respect of the conditions imposed by way of this decision.

Any such objection shall be made in writing to the Gore District Council, setting out the reasons for the objection, within 15 working days after the decision being notified to you.

REASONS FOR DECISION

1. As the proposal involves no physical work beyond that legally established it will not give rise to any adverse effects.
2. No person could reasonably claim to be affected by the proposal.
3. The proposal is not contrary to any objectives and policies of the proposed district plan and consistent with the provisions of Part II of the Resource Management Act 1991.

A handwritten signature in black ink, appearing to read 'David A Pullar', written in a cursive style.

David Pullar

APPLICATION FOR RESOURCE CONSENT

To: Gore District Council
P O Box 8
GORE

I/We **V B Frank Properties Ltd**
resource consent as described below.

apply for a

- 1) The names and addresses of the owner and occupier (other than the applicant) of any land to which the application relates are as follows:

**P & R Westlake
396 Winton Channel Road
R D 2
Winton 9782**

- 2) The location of the proposed application is as follows:
(describe the location in a manner which will allow it to be readily identified, e.g. the street address, the legal description, the name of any relevant stream, river, or other water body to what the application may relate, proximity to any well known landmark, the grid reference (if known) etc).

**7 Kerwood Place/26 Kakapo Street, Gore
Lot 30 DP 9224, Blk LXXI, Hokonui S D**

- 3) The type of resource consent sought is as follows:

Subdivision Consent and Land Use Consent

- 4) A description of the proposed activity to which consent is sought is as follows:

Subdivision of land in the Residential Zone to create two new (residential) allotments, together with a Land Use Consent to exceed the site coverage (for the existing two residential buildings).

- 5) The following additional resource consents are required in relation to this proposal and have / have not been applied for from either Department of Conservation or Environment Southland.

Water Permit : Discharge Permit
(Circle appropriate item(s))

- 6) I attach, in accordance with the Fourth Schedule of the Resource Management Act 1991, an assessment of environmental effects in the detail that corresponds with the scale and significance of the effects that the proposed activity may have on the environment.
- 7) I attach any information required to be included with this application by the district plan, the regional plan, the Resource Management Act 1991, or any regulations made under that Act.
(List documents you are attaching)

Written report
Subdivision Consent plan
Aerial photo

- 8) Where the application is for a subdivision consent, I attach a map and information that is sufficient to adequately define:
- a) the position of all new boundaries;
 - b) the areas of all new allotments;
 - c) the location and areas of new reserves to be created including any esplanade reserves and esplanade strips;
 - d) the locations and areas of any existing esplanade reserves, esplanade strips, or access strips;
 - e) the locations and areas of land or of any part of the bed of a river or lake which is to be vested in the Crown or local authority under Section 237A of the Act;
 - f) the locations and areas of land to be set aside as new road.

The Consents Manager
Gore District Council
P O Box 8
GORE

Attention **Keith Hovell**

Dear Sir

Re: **Proposed Subdivision of Lot 30 DP 9224, Blk LXXI, Hokonui S D**

Owner: **V B Frank Properties Ltd**

Please find enclosed for your Councils consideration and approval two copies of the plans for the subdivision of the abovementioned property in Kerwood Place/Kakapo Street, Gore.

The subject land is owned by V B Frank Properties Ltd in the following certificate of title as per copy enclosed:

CR SL5D/345

Lot 30 DP 9224

1291m²

We now seek approval for the subdivision of the land as per the attached plan to enable the development of the land as follows:

Stage I - creation of two new residential allotments, with one block of units on each site

Stage II - creation of a Cross Lease development for each new allotment, with two residential units on each of those allotments

The site currently is developed with two residential buildings (containing two units each) as detailed on the attached photo.

Stage I will be developed as follows:

We propose to create **Lot 1 containing some 415m²** with frontage directly onto Kerwood Place and with physical access directly onto that street but by way of the existing crossing. With a nett site area of 415m² a site coverage of 40% will allow for a building footprint of 166m² within the allotment.

We propose to create **Lot 2 containing some 876m²** with a frontage by way of the entry strip onto Kakapo Street, and by way of the existing crossing. With a nett site area of 680m² (876m² less entry strip of 196m² a site coverage of 40% will allow a building footprint of 272m² within this allotment.

Within the District Plan, the land is within the Residential Zone (Planning Map GOR 06) where the proposal will be considered as *discretionary activity* in terms of **Rule 8.10.3**.

Existing services are available and connected to Kerwood Place, with the following to be noted:

- (i) Lot 1 will have the water connection directly from the street, with other service utilities directly from the street boundary
- (ii) in terms of the vehicle access, we will retain the existing entry

Existing services are available and connected to Kakapo Street, with the following to be noted:

- (i) Lot 2 will have the water connection directly from the street with other service utilities directly from the street boundary
- (ii) in terms of the vehicle access, we will retain the existing entry

We believe that all relevant matters have been raised and that Council will not be in a position to impose a financial contribution for reserves purposes or for infrastructure purposes – all the building and infrastructure is already in place. General discussions have been held with the Plumbing and Drainage Manager re the retention of those existing services.

We need not apply for an associated Land Use Consent to cover the following matters:

- a) the site coverage of the existing units that are erected within the site

In the terms of the site coverage as set out in (a) above, the following is proposed in terms of the building site plans submitted.

- (i) Lot 2 will have a building footprint of 169m² which is less than the allowable footprint of 272m² (as outlined earlier).
- (ii) Lot 1 will have a building footprint of 152m² which is less than the allowable footprint of 166m² (as outlined earlier).

Stage II will be developed as follows:

We propose to further develop Lot 1 by the creation of a Cross-Lease development to create **Flat 1** (together with the associated area restricted as to user, Yard 1) and **Flat 2 & 2A** (together with associated area restricted as to user, Yard 2) including an area designated as **Common** (for the use of both Flats). This development is over the existing buildings and as detailed on the attached plan (Ref 5091 sheet 1 of 2) and associated building layout plan.

We also propose to further develop Lot 2 by the creation of a Cross-Lease development to create **Flat 3** (together with the associated area restricted as to user, Yard 3) and **Flat 4** (together with the associated area restricted as to user, Yard 4) including an area designated as **Common** (for the use of both Flats). This development is also over the existing buildings and as detailed on the attached plan (Ref 5091 sheet 2 of 2) and associated building layout plan.

We also need to apply for an associated Land Use Consent to cover the following matters:

- b) site coverage of the existing Flats that are erected within the site

In terms of the site coverage set out in (b) above, the following is proposed in terms of the building plans

- (i) Lot 1 has an area of 415m^2 , but if the Common Area of some 46m^2 is excluded, then the allowable footprint would be 40% of 369m^2 (415m^2 less 46m^2) or 148m^2
- (ii) Flat 1, Flat 2 & Flat 2A has a building footprint of 152m^2 which is greater than the allowable footprint of 148m^2 (as outlined above)
- (iii) Lot 2 has a nett site area of 680m^2 . but if the Common Area of some 71m^2 is excluded, then the allowable footprint would be 40% of 609m^2 (680m^2 less 71m^2) or 244m^2
- (iv) Flat 3 & Flat 4 has a building footprint of 152m^2 which is less than the allowable footprint of 244m^2 (as outlined above)

In relation to that Land Use Activity (site coverage) it has been deemed that as the buildings are all in existence, then there is no *affected parties*, and as such no written approvals have been required (and as discussed with the Planning Manager).

We believe that as this proposal can be considered to be in compliance with the District Plan, then this proposal may be approved as outlined and as submitted for the appropriate Subdivision Consent and Land Use Consent.

To process this application we attach a cheque for \$450.00 being the required consent fee, together with copies of the relevant certificates of title and aerial photo.

Should you require further clarification in respect of this matter, please contact us.

Yours faithfully

CLARK FORTUNE McDONALD & ASSOCS
