	PRODUCER STATEMENT PS1/PS2/PS3/PS4 (descriptions overleaf) <i>Please delete as applicable</i>	

Producer statements were first introduced with the Building Act 1992. The producer statements were developed by a combined task committee consisting of members of the New Zealand Institute of Architects, Institution of Professional Engineers New Zealand, Association of Consulting Engineers New Zealand in consultation with the Building Officials Institute of New Zealand. The original suite of producer statements has been revised at the date of this form as a result of enactment of the Building Act (2004) by these organizations to ensure standard use within the industry.

The producer statement system is intended to provide Building Consent Authorities (BCAs) with reasonable grounds for the issue of a Building Consent or a Code Compliance Certificate, without having to duplicate design or construction checking undertaken by others.

- PS1 Design** Intended for use by a suitably qualified independent design professional in circumstances where the BCA accepts a producer statement for establishing reasonable grounds to issue a Building Consent
- PS2 Design Review** Intended for use by a suitable qualified independent design professional where the BCA accepts an independent design professional's review as the basis for establishing reasonable ground to issue a Building Consent
- PS3 Construction** Forms commonly used as a certificate of completion of building work are Schedule 6 of NZS 3910:2003 or Schedule E1/E2 of NZIA's SCC 2007
- PS4 Construction Review** Intended for use by a suitable qualified independent design professional who undertakes construction monitoring of the building works where the BCA requests a producer statement prior to issuing a Code Compliance Certificate

This must be accompanied by a statement of completion of building work (Schedule 6).
