12 Kakapo Street
GORE

Dear Sir/Madam

BUILDING CONSENTS - SPECIFIED INTENDED LIVES

A Building Consent Application was lodged with this office by MacManus Heating Limited acting as owner/agent on 22 March 1993 to cover the erection/installation of a Gillies Globurn situated at 12 Kakapo Street, Gore.

Your Building Consent Application has stated that your building/heating unit is to have a Specified Intended Life of five (5) years.

BUILDING ACT 1991

SECTION 39

Buildings Having Specified Intended Lives

39(1) **[Not More Than 50 Years]** If any proposed building, or any existing building proposed to be altered, is intended to have a use of not more than 50 years, any building consent for that building shall be issued only on condition that the building shall be altered, removed or demolished on or before the end of the specified intended life, and subject to such other conditions as the territorial authority considers necessary.

39(2) **["Specified Intended Life"]** In subsection (1) of this section, "specified intended life", in relation to a building, means the period of time, as stated in an application for a building consent or in the consent itself for which the building is proposed to be used for its intended use.

NOTE The definition of a "Building" includes a heating unit.

2/....

A building consent for a building/heating unit with a "specified intended life" may only be issued on the condition that the building/heating unit is altered, removed or demolished by the end of that specified intended life. The territorial authority may impose other conditions it considers necessary.

"Specified intended life" means the period of time, stated in an application for a building consent or in the consent itself, for which the building/heating unit is proposed to be used.

A specified intended life may not be extended unless the territorial authority is satisfied that in its extended use the building/heating unit has been altered in compliance with the BUILDING ACT.

Often in the past territorial authorities have allowed temporary buildings/heating units to be built/installed. Sometimes the fact that they are temporary building/heating units has not been properly documented and subsequent owners have been none the wiser. Now this information will be accessible through a land information memorandum.

Yours faithfully

W R Harvey
SENIOR BUILDING CONTROL OFFICER

----- please detach here -----

SPECIFIED INTENDED LIFE

Consent No. 93/165

I/we **J Gibson-Smith** being the owner of the property situated at **12 Kakapo Street, Gore** have read and understood Section 39 of the Building Act as is attached.

BUILDING CONSENTS ISSUED

Local Authority: **Gore District Council**

Consent No: **93/165**

Instructions

Complete this form for each building consent issued and send it to Buildings Survey Section, Department of Statistics, Private Bag, Dunedin, within 7 days of the end of the month in which the building consent was issued.

Purpose

The purpose of this survey is to collect data which will be used to compile statistics for use by government, industry, research organisations and others in the community.

Compulsory requirement

The taking of this survey has been approved by the Minister of Statistics and the return of this form duly filled in is a compulsory requirement under the Statistics Act 1975.

Date issued: **24 / 3 / 93**

* Under Section 33 of the Building Act 1991 the applicant must be the owner of the land on which building work is contemplated or a person who or which has agreed in writing, whether conditionally or unconditionally, to purchase the land or any leasehold estate or interest in the land, or to take a lease of the land, while the agreement remains in force.

This application is for:

- ☐ Building consent only, in accordance with project information memorandum no:.....
- ☐ Both building consent and a project information memorandum.

PART B: PROJECT DETAILS

(Complete Part B only if you have not applied separately for a project information memorandum)

The project involves the following matters *(cross each applicable box, if any, and attach relevant information in duplicate)*.

- ☐ Location, in relation to legal boundaries, and external dimensions of new, relocated, or altered buildings.
- ☐ New provisions to be made for vehicular access, including parking.
- ☐ Provisions to be made in building over or adjacent to any road or public place.
- ☐ New provisions to be made for disposing of stormwater and wastewater.
- ☐ Precautions to be taken where building work is to take place over existing drains or sewers or in close proximity to wells or watermains.
- ☐ New connections to public utilities.
- ☐ Provisions to be made in any demolition work for the protection of the public, suppression of dust, disposal of debris, disconnection from public utilities, and suppression of noise.
- ☐ Any cultural heritage significance of the building or building site, including whether it is on a marae.

PART C: BUILDING DETAILS

(Complete Part C in all cases)

This application is accompanied by *(cross each applicable box, attach relevant documents in duplicate)*:

- ☐ The drawings, specifications, and other documents according to which the building is proposed to be constructed to comply with the provisions of the building code, with supporting documents, if any, including:
- ☐ Building certificates.
 - ☐ Producer statements.
 - ☐ References to accreditation certificates issued by the Building Industry Authority.
 - ☐ References to determinations issued by the Building Industry Authority.
- ☐ Proposed procedures, if any, for inspection during construction.
